We also specialize in the supply of bespoke document wallet with a minimum order quantity starting at 10,000 wallets. These can be printed up to 8 colours and produced with an option of either a standard glue coating or soft glue coating on the reverse. The soft glue option is ideal for parking ticket wallets or wallets which are stuck onto printed boxes (these can be removed without damaging the printing on the box).

Also available are document wallets with a re-sealable flap (ideal for courier companies and exporters where documents need to be checked by customs).
